BEYOND THE FINISHING TOUCH

CW07

STEADY AS SHE GOES

The CW07 is a fixed pilot seat platform, created for yacht builders who value speed, premium quality and a refined level of customization. By combining a proven core structure with tailored finishing options, the CW07 strikes the perfect balance between form and function.

Every CoverWorks seat follows our D3 approach: **Design, Develop, Deliver**.
A clear, structured way of working that supports confident decisions and reliable outcomes, with one dedicated partner managing every step of the process.

BENEFITS THAT FLOAT YOUR BOAT

01
Ready-to-use pilot seat platform

02
No development time required

03
No upfront investment

04
Premium carbon fiber base

05
Brand flexibility within a fixed design

06
Ideal for low-volume production

YOUR
own brand

DESIGN

An anchored starting point

The design of the CW07 is fixed and validated. Its form, proportions and ergonomics are carefully developed to suit high-end yacht environments.

This proven foundation removes design uncertainty and allows you to move directly into specification and application. The result is a pilot seat that integrates seamlessly on board, providing a solid base for tailored finishing.

DEVELOP

Setting the course

Within the fixed CW07 design, there is room to make it your own. You define upholstery materials, stitching patterns, finishes and visual details to align with the character of your (client's) vessel and your brand's design language.

This approach combines efficiency with flexibility. You benefit from a ready-made platform, while still delivering a pilot seat that feels distinctive and considered for each project.

- Sliding mechanism
- Tip-up seat
- Fixed armrests
- Flip up/down armrest
- Full carbon fiber shell
- Satin or high-gloss finish
- Freedom in upholstery and detailing

DELIVER

A seat for smooth sailing

With design and development complete, delivery is all about execution.
The CW07 is produced with a focus on efficiency, repeatability and consistent quality, making it ideal for low-volume series and premium yacht builds.

From carbon fiber shell to final upholstery, every seat is manufactured with care and precision, ensuring reliable lead times and dependable performance in demanding marine conditions.

Designed with vision.
Developed with precision.
Delivered with confidence.

We make it happen.
